Email: shivakoushik001@gmail.com
Mobile: +91 7729927707

## Skills

- **Languages**: Python, C++, Java, C,
- **Tools/Platforms**: Cisco, CompTIA, Wireshark, Aws
- **Soft Skills**: Problem-Solving, Team Player, Adaptability, Resilience

## Internship

- **Cyber Security Intern — Edunet Foundation (AICTE)** Mar 2026 – Apr 2026
  - Completed a 4-week AICTE-certified Cyber Security internship with Edunet Foundation powered by VOIS for Tech (Vodafone Idea Foundation), gaining hands-on experience with cybersecurity tools, ethical hacking, and network security concepts.
  - Worked on Kali Linux, Wireshark, MITM attacks, phishing simulations, Python Port Scanner, cryptography, and Gen-AI-assisted packet analysis across structured weekly technical sessions.
  - Developed and submitted an independent project, showcasing applied knowledge in real-world cybersecurity challenges and earning certification from AICTE and Edunet Foundation.

    **Tech Used:** Kali Linux, Wireshark, Python, Nmap, Gen-AI Tools, Cisco Packet Tracer, Cybersecurity Concepts (MITM, Phishing, Cryptography, Ethical Hacking).

## Projects

- **Windows Raw Socket Packet Sniffer | GitHub** Jun 2025 – Jul 2025
  - Built a Windows Raw Socket Packet Sniffer in Python to capture and analyze real-time network packets.
  - Used raw sockets and promiscuous mode (SIO_RCVALL) to monitor incoming network traffic at the IP level.
  - Enhanced practical networking skills by handling raw byte streams, managing buffer sizes, and ensuring accurate and efficient packet retrieval on Windows systems using low-level socket APIs.

    **Tech Used:** Python, Raw Sockets, IP Header Parsing, Windows Networking API, Packet Sniffing, Network Protocols (ICMP/TCP/UDP).
- **Steganography Encoder & Decoder | GitHub** Mar 2025 – May 2025
  - Built a Python-based Steganography Encoder & Decoder to hide and extract secret text inside images using LSB techniques.
  - Used binary conversion and pixel-level manipulation to embed messages securely within RGB image channels.
  - Improved skills in image processing, cybersecurity basics, and low-level data handling using Python and Pillow.

    **Tech Used:** Python, Pillow (PIL), LSB Steganography, Image Processing.
- **Basic Keylogger | GitHub** Feb 2025 – Apr 2025
  - Developed a Python-based educational keylogger to understand how keyboard event monitoring works, strengthening foundational knowledge in cybersecurity, ethical hacking, and system input handling.
  - Applied core concepts such as event listeners, keystroke logging, file handling, and secure SMTP communication to record user input and send log data via email for controlled testing environments.
  - Built a functional mini-project that captures keystrokes, handles special keys, stores logs in a local text file, and automates email delivery using TLS encryption—demonstrating practical insight into monitoring mechanisms and cyber defense awareness.

    **Tech Used** Python, Pynput, SMTP (Gmail), SSL, File Handling, Keyboard Event Listeners.

## Training

- **Networking in Advance computer Networks — Lovely Professional University** Jun 2025 – Jul 2025
  - Completed a certified summer internship in Advanced Computer Networks, gaining hands-on experience with modern networking technologies, routing protocols, and real-world network design and troubleshooting.
  - Applied core and advanced networking concepts—EIGRP, OSPF, IPv6 addressing, ACLs, dynamic routing, and dual-stack configuration—to build efficient, scalable, and secure network topologies.
  - Strengthened configuration and debugging skills by resolving routing inconsistencies, optimizing protocol behavior, managing multiple LAN segments, and ensuring 100% connectivity through step-by-step verification and troubleshooting tools.

    **Tech Used:** Cisco Packet Tracer, GNS3, Routers/Switches, EIGRP, OSPF, ACLs, IPv6, Dynamic Routing, Network Design, Troubleshooting Commands.

## Certificates

- Master Generative AI & Generative AI tools | Udemy Aug 2025
- Tcp/Ip and Advanced Topics | University of Colorado Nov 2024
- The Bites and Bytes of Computer Networks | Coursera Sep 2024

## Achievement

- 4 Star rating in **SQL** on **Hacker rank platform** Nov 2025

## EDUCATION

- **Lovely Professional University** — Punjab, India
  *Bachelor of Technology - Computer Science and Engineering;* ***CGPA: 6.22*** — *Since August 23*
- **Narayana Junior College** — Andhra Pradesh, India
  *Intermediate;* ***Percentage: 88.8%*** — *April 21 - March 23*
- **Sri sai vikas high School** — Andhra Pradesh, India
  *Matriculation;* ***Percentage: 99%*** — *April 20 - March 21*
